

U.S. Bars Americans From Red Hungary

Comes After Arrest Of R.A. Vogeler

Washington, Dec. 20.—(AP) The United States today ordered American travelers to stay out of Communist-run Hungary because of the "inhumane" treatment of Robert A. Vogeler and other United States citizens.

A sharply worded note announcing the ban demanded the prompt release of Vogeler, a communications company official who has been held incommunicado for more than a month.

American citizens are no longer "free to transact normal business or to visit, in Hungary, without suffering surveillance, arbitrary arrest and other intolerable molestations," the state department charged in a note handed to Minister Imre Horvath.

To Fix Passports

So, until further notice, the department said, all passports issued to Americans going to Europe will be stamped "not valid for travel in Hungary." The Hungarian government was told also that the U.S. reserves the right to claim damages for harm to Vogeler and that "further measures" are under consideration to be put into effect unless the Vogeler affair is settled satisfactorily.

The threatened measures were left unexplained. They could include closing down Hungarian consulates in New York and Cleveland, or even a complete break in diplomatic relations. However, there was no official hint that such a break is contemplated now.

Only Vogeler was mentioned by name, but reporters were told that the protest applied equally to the reported arrest last Thursday of Israel Jacobson, head of the American joint distribution committee's Hungarian office. Michael J. McDermott, state department press officer, said the Hungarian foreign office now denies any information about Jacobson. Budapest dispatches had reported he was arrested upon his return from a six week visit to his home in Chicago.

Taken Secretly

Vogeler, 38, an assistant vice president of the International Telephone and Telegraph Corp., was nabbed secretly when enroute by motor car from Vienna to Budapest. For four days after his arrest, Nov. 18, the foreign office denied any information about him, the state department said. Later Hungary declared he had made a "confession" of espionage and sabotage against the Communist regime and admitted implication in the attempt of a Hungarian citizen to flee from the country.

Meantime, Nathaniel P. Davis, U.S. minister, and other American officials have been denied any opportunity of talking with Vogeler. This, it was charged, violated the "spirit and letter" of a 1926 U.S.-Hungary commercial treaty as well as the terms of the 1947 peace treaty and the United Nations human rights declarations.

Soviets Attempt To Block Trial Of V.A. Gubitchev

New York, Dec. 20.—(AP)—The Soviet government tried to block the spy conspiracy trial of Valentin A. Gubitchev today with a formal claim of diplomatic immunity for the Russian engineer.

Gubitchev, a former United Nations employee, is awaiting trial with Judith Coplon, Brooklyn-born former government girl, on charges they conspired to transmit government secrets to Russia.

Lev S. Tolokonnikov, first secretary of the Soviet embassy in Washington, read a formal claim of diplomatic immunity signed by Alexander S. Panyushkin, Russian ambassador.

The document listed Gubitchev as "an officer of the diplomatic service in the ministry of foreign affairs of the U.S.S.R. since April 26, 1946, with the diplomatic rank of third secretary."

Federal Judge Sylvester R. Ryan delayed a decision on the immunity claim to give the government a chance to answer it Thursday.

Diplomatic immunity prevents this country from trying the authorized diplomatic agents of another country in U.S. Courts.

Manstein Begins 18 Year Term For Crimes

Frankfurt, Germany, Dec. 20.—(AP)—Former Field Marshal Erich von Manstein was taken to prison in the British zone today while 27 other convicted German war criminals of lesser rank were released on parole in the American zone.

German newspapers almost unanimously criticized the 18-year sentence given Manstein by a British military court yesterday for alleged atrocities by his German troops in Poland and Russia. Manstein was whisked secretly from a Hamburg hospital before dawn to a prison at Werl, near Hamm.

His fellow prisoners at Werl include Field Marshal Albert Kesselring, Hitler's western front commander during part of World War II, and Gen. Nikolaus von Falkenhorst, who was supreme commander of German forces in Norway. Kesselring is serving a life term; Falkenhorst 20 years.

The paroles went to 27 inmates of the Landsberg prison. They stepped jauntily to freedom. They praised the prison food and shouted "auf wiedersehen" to workmen in the prison yard.

Most of the group were sentenced four or five years ago on conviction of cruelty to parachuted American fliers and to concentration camp inmates. The majority would have served out their normal terms by the end of next June. They were released earlier under a plan whereby prisoners are credited for good behavior with five days off for every month served.

Twenty-seven other convicted war criminals are slated for release from Landsberg under the same plan tomorrow and an additional five are due for parole soon.

The American-licensed Berlin Tagesspiegel found it difficult to reconcile Manstein's 18-year sentence with the release of the parolees.

Kremlin Flooded By Gifts For Stalin Who Is 70 Today

Says Reds Used 'Girls Without Morals' To Lure GIs To Commies

Washington, Dec. 20.—(AP)—Girls who had "no morals whatsoever" and who "went to any extremes" were enlisted by the Communist party during the war to lure American servicemen to Communism, a Senate committee has been told.

The committee also has testimony, made public tonight by Senator McCarran (D-Nev.), that the Communists "have taken over or infiltrated labor unions in key industries in this country and are in position to call 'extensive strikes.'"

The testimony was given under oath by John J. Huber of Mt. Vernon, N.Y., who told a Senate Judiciary subcommittee has been an undercover agent for the FBI from 1938 to 1947.

The FBI declined to comment on that when the subcommittee, headed by McCarran, put out the first installment of Huber's account last Saturday. The witness testified behind closed doors last September 8 and 9, and again on Oct. 28.

McCarran's group is studying legislation designed to bar the immigration gates to subversive aliens and to get rid of any already in the United States.

Huber said he joined the Communist party in New York at the FBI's request after he told the agency that some of his fellow workers in the old WPA were Communists. He said he reported to the FBI on Communist activities for nine years, and then ended the undercover work "of my own volition."

When he went before the subcommittee in October, Huber testified that:

"One of the most ambitious plans of the Communist party to carry on its subversive work among members of the armed services was the establishment of an organization called SOS, sweethearts of servicemen."

"This group consisted of young women who were instructed to pick up servicemen off the streets and bring them to the SOS club rooms, where they were given liquor, entertainment and dancing."

"These women would go to any extremes to entertain servicemen and thereby make them more disposed to join the Communist movement."

Huber said the same tactics were used in an effort to attract seamen graduated from the Merchant Marine School at Sheepshead Bay, N.Y.

The party, Huber added, also used girls to distribute Communist propaganda to workers because it found they were not beaten up by plant guards as men were.

Huber also testified that eight years ago he sat in at a Communist meeting where he said plans were made "to capture transportation, communications, teamsters, warehousemen, radio and motion pictures" in this country.

"That the party has succeeded in realizing such ambitious plans would be an understatement," he added, "for I can see now that the unions in these industries have been taken over or infiltrated by the Communist party."

"Thus the party has within its power the means to call and hold extensive strikes should the occasion demand it; strikes which could well be the training ground of a revolution for the overthrow of our government and the establishment of Communism."

The witness said:

"I know that in 1941—even after we were supposed to be allies with Soviet Russia—a large number of Communists were obtaining employment in defense industries, assisted by the United Electrical, Radio and Machine Workers (CIO)."

(The CIO recently expelled the United Electrical Workers Union, charging it was Communist dominated.)

Huber said he reported to the FBI on Communist activities for nine years, and then ended the undercover work "of my own volition."

No One Man Could Ever Use Them All

By The Associated Press
London, Dec. 20.—A vast hoard of tribute — from Russians, from friends and from the conquered—was piled up at the Kremlin tonight as birthday gifts to Joseph Stalin, who is 70 tomorrow.

Thousands of porcelains and crates, trainloads of merchandise, whole exposition halls of trinkets and pictures, factories and socks, books and horses, wines and toys, delicacies and cars were funneled toward Moscow from the Elbe to the Black Sea.

The flood of adulation was as high. Honors, pledges of special work, five-foot shelves of books of greetings, poems, plays, music and portraits dedicated to him, mountains and cities named for him—all these were heaped at the feet of the giant of communism.

No one man could ever use all the gifts, or read all the honors. Probably no one man could ever distribute them.

What it was all worth was anyone's guess, but certainly millions of dollars.

Eastern Germany alone collected 70 freight car loads of gifts—one car for each year — as a sort of whimsical reparation.

A locomotive almost hidden by a huge portrait of Stalin pulled out of Warsaw with 11 cars loaded with gifts.

Obviously Stalin would have no use for the 17 dolls from Italy, the shipment of nylon women's stockings from French admirers, the motorcycle from Prague, or an Italian racing bicycle.

The size of Stalin's foot, like most things about the Kremlin, is a mystery. So the boots, shoes, slippers, sandals, spats and bootjacks sent in dazzling array from France arranged in size from nine to 12. Some ought to fit.

More Milk From Cows
Even Czechoslovakia's cows were asked to give a little more for Stalin. The Prague radio said workers on state-owned farms had pledged one-half liter (a little over a pint) of milk a day from each cow as a tribute.

Ukrainian peasants, if they had nothing else, sent sunflower seeds and red apples.

Hungarian scientists sent a report on how they developed a new rice suited to dry, sandy soil.

Improvised Warsaw needed six halls to display the gifts: Riga, capital of a reluctant Soviet state, Latvia, needed eight.

Among the carloads from Romania were working models of machines, ornamental rugs, and a radio which lights up a picture of Stalin when it is turned on to Moscow broadcasts.

Communist China, whose Mao Tse-tung is in Moscow for the celebration, sent sculptures, rare books and silk banners.

Bulgaria's cabinet by decree renamed a science school, a city, a dam and a mountain for him. The city is Varna where 80,000 people live by the black sea. The mountain is 9,500-foot Mt. Mussala.

Besides piling up a mountain of gifts, Czechoslovakia also renamed her highest peak, 8,737-foot Mount Gerlachovka, in Stalin's honor.

Announce Nash To Introduce Entirely New Line Of Cars
Detroit, Dec. 20.—(AP)—Nash Motor, will introduce some time in 1950 an entirely new series of cars to supplement its present streamliners and ambassador lines.

The announcement did not say so, but the new series is presumed to be the much talked about new lower priced Nash. The company announcement said introduction of the car "will enter Nash in a new price field." It added that Nash-Kelvinator's annual report to be issued next week will describe the move as being of major importance to the corporation's future.

Truman Back In Capital After 3-Week Vacation

Checks Over Plan To Push Through His 'Fair Deal'

Washington, Dec. 20.—(AP)—President Truman, tanned and plump, flew from Florida today for a quick pre-Christmas once-over of the battle plans for pushing his "fair deal" program through an election-minded congress.

The three weeks he spent at the "Little White House" at Key West showed in his cheerful, relaxed demeanor as he swung down out of the "Independence," his four-engine plane, after the three hour 46 minute flight.

Here Only 3 Days
The president will be here only three days before leaving Friday—again by air—for his Independence, Mo., home where he will spend Christmas. He is due back Dec. 28, just six days before congress reconvenes.

Then his grind will begin in earnest. In quick succession, he must deliver his state of the union message to the lawmakers, and send up his multi-billion dollar budget and annual economic report.

There is every indication that the president is determined to plow ahead on the same line he laid out repeatedly to congress in previous messages: Cooperation with America's anti-communist friends abroad and far reaching social and economic revisions in the nation's domestic life.

He and his advisers realize that some of these matters, particularly the domestic program he calls the "Fair Deal," are going to run into implacable opposition in the House and Senate. But men who know Mr. Truman intimately are convinced he will not swerve from the program he has been hammering on for four years.

If congress won't accept it, the voters will have their say next November. All 435 House seats and 36 places in the Senate will be at stake then.

Renewed pleas for enactment of civil rights, aid to education, health insurance, social security and similar laws are considered certain in his state of the union message.

The big unanswered question at this point appears to be financing the large contemplated outlays, which probably will run above \$43,000,000,000.

Chicago, Dec. 20.—(AP)—All Illinois saloon and liquor store operators were asked today to close their places for 24 hours starting at 6 o'clock Christmas Eve.

The request for voluntary closings was made of all license holders by Charles J. Fleck, chairman of the Illinois Liquor Control Commission. He said the closings would let all persons engaged in the alcoholic beverage business spend the eve with their families and attend church on Christmas day.

Fleck asked the cooperation of all industry associations in working toward this objective. He said there is ample time before Christmas Eve to purchase beverages, just as there is for any other commodity.

Circuit Judge Caswell J. Crebs set the trial for Feb. 14.

World Crude Oil Production Up 2% During October

Tulsa, Okla., Dec. 20.—(AP)—World crude oil production rose 2 per cent during October. Largely because of an increase in United States output, The Oil and Gas Journal reported today.

It estimated the world's daily average at 9,512,100 barrels, of which 5,046,000 barrels flowed from domestic wells. Small production hikes were found in Venezuela and Saudi Arabia.

Colombia and Canada dropped off from September. Canadian fields are temporarily shut back until tapped by major pipelines now building, the industry periodical explains.

Middle East flow was 1,428,000 barrels a day, highest for the region since last April.

The outlook for western Germany is favorable. Exploration there during the year has been modestly successful. October production in the Reich averaged 17,800 barrels daily, a postwar record.

Doctors Describe Detection Device For Heart Ills

Chicago, Dec. 20.—(AP)—A simple device that may detect the earliest stages of high blood pressure, hardening of the arteries and possibly coronary heart disease was described today.

Dr. A. C. Ivy and Dr. L. R. Krasno of the University of Illinois call the instrument a flicker meter. It is a box-shaped apparatus containing a light bulb placed behind a rotating shutter.

The theory behind the tests is that changes in the blood vessels of the eye retina are forerunners of these diseases.

A subject attempts to count the number of flicks the shutter makes in a given time. A healthy person should be able to count a greater number of flicks than one whose eye blood vessels are unsound. At a certain critical speed, varying with the condition of the patients' eyes, the flicks blend into a blur.

Then the results are checked by giving the subjects a nitroglycerine tablet which dilates the blood vessels. Then the flicker tests are repeated immediately.

RATE OF PRODUCTION HIGH IN NOVEMBER

Washington, Dec. 20.—(AP)—The commerce department said tonight the overall rate of production at the end of November was "about as high as in September, which in turn was the best month since May."

The department said recovery from the October strikes was "swift and widespread" in the industries most directly affected.

In the December issue of its "Survey of Current Business" the department asserted that economic activity maintained "an even keel this fall, following a recovery from the summer low."

Orders Retrial Of Damage Suit Against Magazine

Chicago, Dec. 20.—(AP)—The Appellate Court today ordered a retrial of a \$100,000 damage suit by an Enid, Okla., artist against Time, Inc., publisher of Life magazine.

Behind the suit is a dispute over who made the first portrait of President Truman.

The artist, Larry Pendleton, 51, charged in his Superior Court suit last year that the Nov. 26, 1945, edition of Life contained a reproduction of an oil portrait of Mr. Truman, identified as the first done by the president.

Pendleton said that actually he painted the first portrait of Mr. Truman in January, 1945, before Mr. Truman became president. He said the Life editors knew this because he had tried to sell reproduction rights to the magazine.

He asked damages on the ground that he lost the prestige due him for painting the first Truman picture and that he lost money on reproduction rights after Life reproduced another painting.

The artist said he was damaged because the Life article said the painting was the first of the president, a statement that Pendleton said made him appear as not telling the truth about his work.

On Oct. 8, 1948, Judge John J. Lupe of Superior Court dismissed the case. He upheld defense contentions that actual damages allegedly suffered by Pendleton were not specified.

Stevenson Names Two New Members To Parole Board

Springfield, Ill., Dec. 20.—(AP)—Two new members of the state division of correction which handles pardons and paroles have been appointed by Governor Stevenson.

They are Albert H. Manus of Freeport, 68, a former circuit judge, and Samuel Arndt, 43, a Rock Island lawyer. Both are Democrats and will replace two Republicans.

Duane Reed of Chicago and Lawrence M. Cross of Brookfield—effective Jan. 1.

The appointments, announced today, give Democratic members a four to one majority in the division.

The lone remaining Republican is John Chapman of Chicago, who was named by former Gov. Dwight H. Green with Stevenson's approval just before the Democratic state administration took over Jan. 10.

Stevenson recently named Michael Seyfrid, Carlinville lawyer and Democratic state central committeeman, and Joseph Lohman, University of Chicago Sociologist.

Jury Decides On Maragon Case

Verdict Won't Be Known Until January Third

Washington, Dec. 20.—(AP)—A federal grand jury decided today whether it should indict John Maragon, mysterious man-about-Washington who once had a White House pass and who now is accused of lying to congress.

But what the grand jury's verdict was—yes or no—won't be known until Jan. 3, when it hands down its indictments.

The district attorney's office said that after hearing 11 persons testify, the grand jury decided it had heard enough witnesses to make its decision.

Friend Of Vaughan
Maragon was a friend of Maj. Gen. Harry Vaughan, President Truman's military aide. "A lovely sort of guy," Vaughan once said of Maragon.

This is the question the grand jury had to decide: Did Maragon perjure himself when he testified before the Senate investigations subcommittee last summer?

This was during the five-percent inquiry, a study of men who claimed they would swing government contracts for business men in return for a fee, usually five per cent.

GENERAL "IKE" HAS THEM PUZZLED

Friends of President Truman say he views Gen. Dwight D. Eisenhower as an active bidder for the presidency in 1952.

They do not say so, but presumably he sees the general as a candidate for the Republican nomination. Certainly Eisenhower's public utterances are not in a vein that can be easily reconciled with Democratic Fair Deal philosophy.

Eisenhower himself is of course denying his candidacy with almost as much regularity as he did in the campaign year 1948. But it is true he is speaking out more and more on the chief issues of the day.

Moreover, a clear pattern of thinking is emerging from his statements. He is resolutely opposed to the welfare state, to bigness in government, to emphasis upon security at the expense of self-reliance, all the things the Republicans say the Democrats stand for.

Ike's "hot dogs and beer" speech, in which he advised the average man to scale down his dreams from the champagne level, is said to have convinced Mr. Truman the general is trying to build up strength for entry into the political arena.

The President's intimates add that despite his great admiration for the general as a soldier he regards him as strictly an amateur in politics.

An old political axiom has it that no one ever wins a party presidential nomination without working like a Trojan for it. If Mr. Truman is right and Eisenhower really wants to run, then he has a lot of work ahead of him.

Assuming that ambition, we'll soon see how much of an amateur he is. His present heavy round of speech-making may indeed be the first step along the road. Many candidates in the past have begun their determined drive in this fashion.

But there is much more to it than keeping in the public eye and outlining one's views. In the very process of telling where he stands, Eisenhower is bound to lose some of that huge reservoir of popular esteem he has enjoyed since World War II ended.

So long as he was silent, any citizen could imagine the general stood with him. Now many must know he does not. Inevitably that will impair his vote-getting appeal. Thus the general's task is somehow to hold as much as he can of his magnetic strength while still forthrightly declaring his principles. A neat trick.

Furthermore, Eisenhower is a political outsider. Though the general hunch is that he is a Republican, he has never said so. The professional leaders in the GOP will not be after him so long as they believe they can win without him. Outsiders are too hard to manage. Other things being equal, a party faithful will always get the nod.

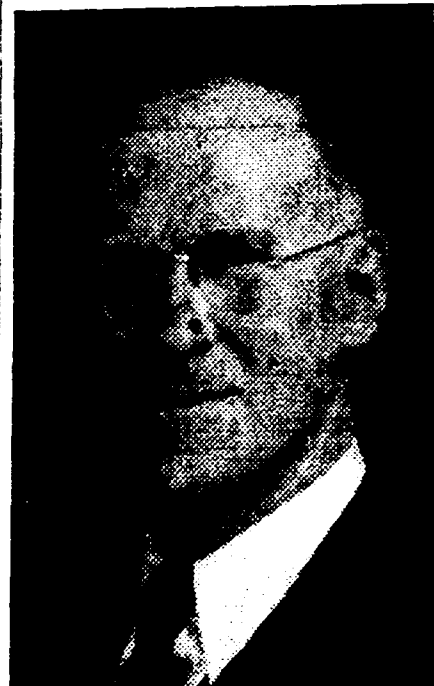

So if Ike really wants to carry the flag in 1952 he will have the tough job of selling himself to the professionals. Wendell Willkie bowled them over in 1940 by extreme effort but they repaid him by crushing his further ambitions in 1944. The regulars are tough to beat and most candidates don't try.

This is what lies ahead of Eisenhower if he has actually set out to capture the GOP nomination, as Mr. Truman suspects.

If, on the other hand, he still means it when he says he isn't a candidate, then all this speculation is a pipe-dream and Eisenhower is just availing himself of the happy American privilege of saying what he thinks about his government. We'll know which it is by 1952, if not before.

MARRIAGE LICENSE

John C. Andras of Manchester and Louise Harris of Jacksonville.

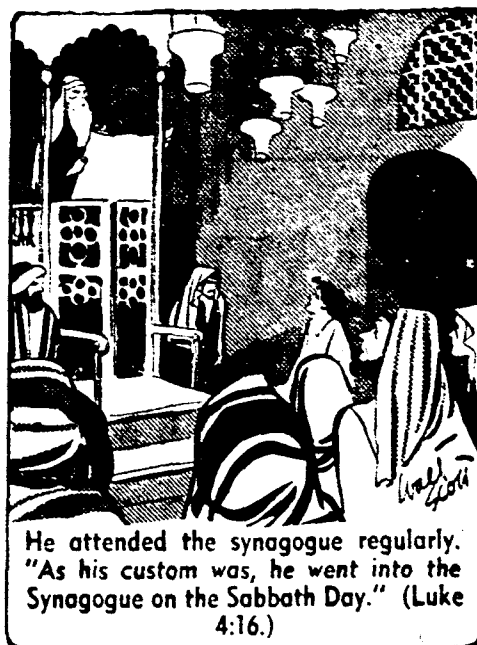

THE STORY OF THE SAVIOR

When Joseph and Mary found Jesus in the Temple, Mary said, "Son, why hast thou thus dealt with us?" Jesus answered, "How is it that ye sought me? Wist ye not that I must be about my Father's business?" Jesus knew what his mission on earth was, but they did not understand his meaning. (Luke 2: 48-50)

The youth grew and "waxed strong in spirit... and increased in wisdom and stature, and in favor with God and man." (Luke 2: 40, 52)

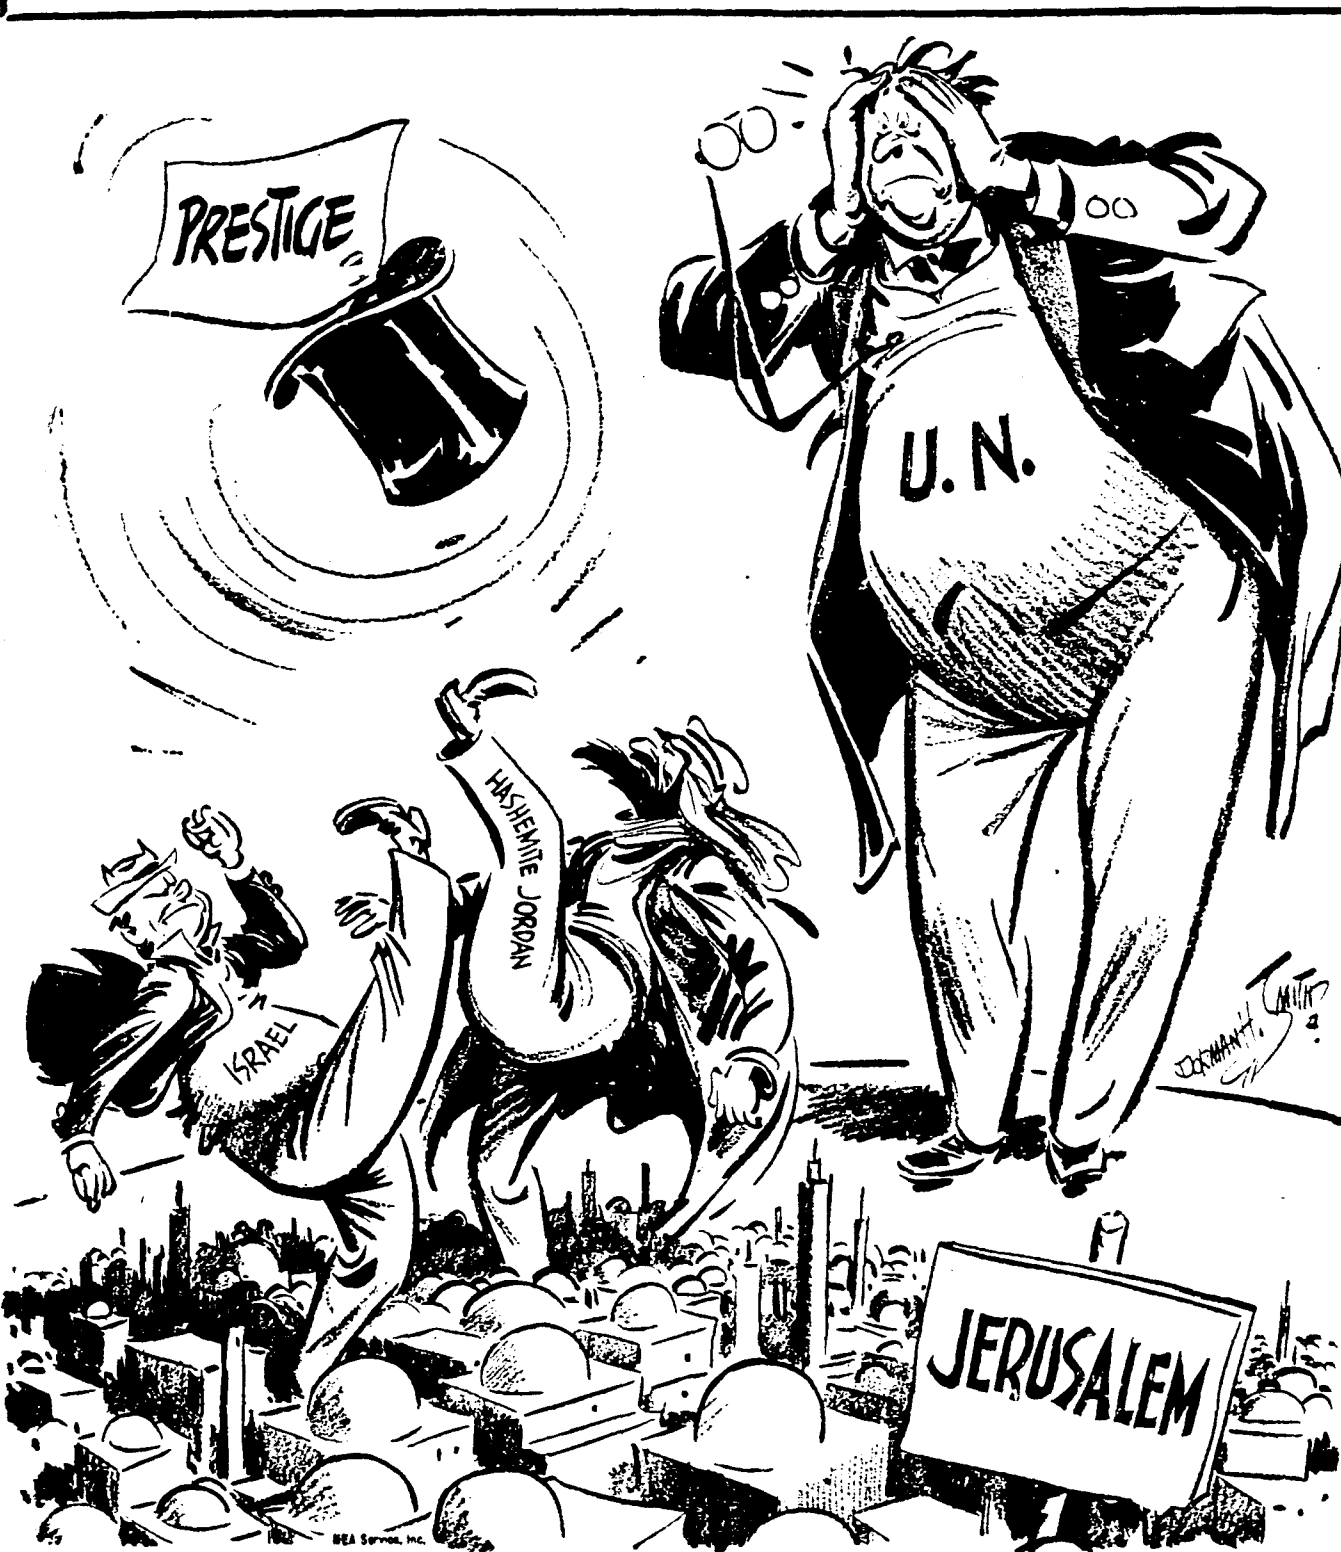

He attended the synagogue regularly. "As his custom was, he went into the Synagogue on the Sabbath Day." (Luke 4:16)

Now there came word to Jesus of the preachings of a man named John in the country about Jordan. This was John the Baptist, cousin of Jesus.

An Open Letter To Joe Stalin

By Hal Boyle

New York—To Joseph Stalin, care of the Kremlin, U.S.S.R.

Dear Joe:
Congratulations, old tovarish, on your happy anniversary of birth. You'll wake up on the longest day of winter to find yourself 70 years old—the life span allotted to man by the Bible you studied as a boy.

They tell me it's to be the biggest birthday party in history. I sure would like to attend your big hoedown. You Russians really know how to throw a party! But circumstances being what they are, I won't be with you in Moscow tomorrow. But I would like to send you a birthday gift—of advice.

The advice, Joe, is to stop and look around.
Come A Long Way
For a guy only two inches taller than Napoleon you've come a long way. You were born a poor Georgian boy, Joseph Vissarionovich Djugashvili, whose father wanted him to become a cobbler and his mother a priest.

But you yourself chose to be a revolutionary, and chose as your party nickname — Stalin, "Man of Steel." You've lived up to your nickname.

Your iron will carried you through seven exiles to Siberia. You fought your way up through Bolshevik ranks, and you let 1,000,000 farmers starve to death because you thought you knew what was best for Russia. Perhaps you did. You have reached heights of power unknown to any previous Russian ruler. You unified your country in uneasy peace—purging by blood all who stood in your path—and you saved your country in a mighty war.

'Put Up Or Shut Up'
Every step of the way you said your acts were dictated by a desire to help the common man—the work-ing class. Practically all leaders say that.

Well, Joe, now's the time to put up or shut up.
What the common man in all lands has yearned most for is a period of peace and prosperity stretching endlessly ahead for him and his children. The common man everywhere, including the Russian, is sick of shedding his own blood.

The common men aren't mad at each other. And they won't be if their leaders won't sic 'em on. You've got the power, Joe, and if you use it wisely maybe God will give you added years to turn your Russia into the wonderland of plenty.

He Put Santa On The Spot

Santa Claus was in his customary jovial, chatty mood, as he stood by the side of his daily decorated house in Central park. A line of within another ten minutes the child eager children waited to greet him, was shaking Santa's hand again. to pour their Christmas wishes into his attentive ears.

One little fellow about five years old had come better prepared than the others. He had a written list of toys, gadgets and candies that would have depleted a good-size department in any store. Where the child got the list is beside the point—perhaps his mother or big brother prepared it for him.

When it came his turn to meet Santa Claus, he stepped up in business-like fashion and handed the list to the merry old fellow who is counted upon to fill all holiday wants.

"All right, sonny, all right!" Santa chuckled as he took a quick look at the long list. "We'll see what we can do."

The line moved steadily forward. The little fellow who turned in his list faded from sight—that is from Santa Claus.

LATIN LIVES IN CAPITAL

Washington —(P)—The way it's taught here, Latin is far from a "dead" language. About 11 per cent of District of Columbia high school students signed up for Latin and 15 per cent of junior high school students.

Miss Emilie M. White, head of the district schools foreign language department, has carried out a policy of making Latin "live" by introducing students to words and phrases in modern usage, like "habeas corpus" and "ex post facto."

OLD COVENANT DOOMS NEW BUILDING

Washington —(P)—Louis Burman, real estate man, built a store building. Then a resident of the neighborhood brought up an 1881 covenant which prohibited buildings from extending closer than 30 feet from the sidewalk.

Burman went to court and lost. The case went to the Supreme Court, which refused to rule. "I guess I'll have to tear down the whole building," Burman said—"but

I'm seriously considering setting up a tombstone on the vacant lot."

SOCIAL SECURITY AND YOU

I've been getting social security benefits for about six months now. Next month I'm going to be married. The woman I'm going to marry is also past 65. Will she get benefits too after we're married?

She can receive monthly benefits as your wife only after you have been married for three years. She cannot receive them any sooner.

My son has a chance to work after school and on Saturdays but he is only fifteen years old. They tell me that he is too young to get a social security card. Is that true?

No, the statement is not true. If any individual is employed on a job that is covered by the Social Security Act he must have a social security card. His age makes no difference what ever insofar as this requirement is concerned.

My husband died about three years

ago and I've been getting social security benefits for myself and my two children since that time. Now I'm thinking of getting married again. What effect will my marriage have on our benefits?

Your remarriage will prevent your receiving a widow's payment any longer. It will have no effect upon the benefits paid to you on behalf of the children. Of course you must notify us as soon as you have remarried in order that your payments may be stopped and your new name be shown on the children's checks.

(Note: A representative of the Springfield Social Security office is in the Employment office in Jacksonville every Thursday morning from 10 to 12. People can call then for information about social security.)

Here's holiday refreshment for your Buick!

TIME'S coming when the air is full of good spirits, and we all feel pretty chipper — but what about that faithful Buick of yours?

Wet winter driving is roughest on cars—and even though it still handles like a sweetheart, your Buick may have slipped a notch or so in performance, or gradually acquired a squeak you haven't been aware of.

So do this . . .

Bring it to us for one of our winter tune-ups, plus a special winter LUBRICARE treatment. (This Lubricare is something you and your Buick should know about—it's an over-all trouble-check, plus a wonderfully thorough lubrication routine!)

Between these two refreshing treatments, you'll have all your Buick's glad and breezy power back—plenty of Fireball zoomph to pull you out of any traffic fuss. You'll have a quiet-riding body and chassis that make every mile a glad glide. And you'll have top mileage efficiency, with a motor that starts on the coldest morning as quick as a scared alarm clock!

Why put it off? Our service is quick and expert, our prices lower than you'd think. The driving pleasure you get is immense. Phone us now and make a holi-date for bringing your Buick's spirits up to those of the season!

Washington Pupils Give 2nd Annual Christmas Story

Washington school pupils presented their second annual dramatization Monday, Dec. 19 at 2 p. m., of the Christmas story, "Why the Chimes Rang." Miss Anna May Natchez, Miss Edith Ruyke were in charge of the dramatic portion of the program and Miss Mildred Eubank directed the singing of the carols. Fifth grade pupils, under

the direction of Mrs. Mae MacLean, painted the stained glass window. Sixth grade pupils directed by Miss Barbara Hart and Miss Marguerita Schoedsack constructed the village scene and the gateway.

Mary Lee McClintock and Sherwin Walker read the beautiful story of sacrifice and humility. Frederick Berry and Freddy Andrews acted the parts of Pedro and Little Brother. Other leading members of the cast were: Old woman, Betty Ambrose; minister, John Hembrough; king, Larry Pontius; King's pages, Alonna Helms, Linda Kay Kincannon, Patricia Crowcroft, Susan Greenberg, Patricia Turnage, and Joan Isle.

Mary Bell Burklow, Barbara Mosley, Myron Hamer, James Walker, and William Norvell played the part of other people in the procession.

A choir composed of children from fifth and sixth rooms sang Oh Little Town of Bethlehem, Gloria, Silent Night, The First Noel, It Came Upon a Midnight Clear, and We Three Kings.

Other songs in the program were: I Heard the Bells on Christmas Day, While Shepherds Watched Their Flocks, and Joy to the World which were sung by the entire school. The children of the first three grades sang: Light, Light, the Candle, and Away in a Manger.

A medley of Christmas carols played by a group of instrumental students who were directed by O. A. Schutte preceded and followed the presentation of the story. The following pupils played in this group: Lewis Norvell, John Conant, Tommy Schimer, Bob Isle, Robert Shewmaker, Stephen Miller, Bob Conant, Gary Watts, Gary Little, Tommy Schuetz, William Martin, Stephen Wilson, Jimmy Walker, Ralph Hisle, and Buell Meyer.

85,000 Letters, Gifts Break All Time Record As Rush Nears Peak

Every Christmas season it seems people are always shopping early to avoid the 'rush', and plan well in advance to have all letters, packages, and greeting cards mailed prior to the last few days before Christmas. All this is done to make certain everything gets where it is doing, on time, and Aunt Susie doesn't have to wonder what happened to her favorite nephew.

Definitely these are good ideas, but do they always work out?

Boys And Parents Discuss Problems Of Most Families

An open discussion for the most part took the place of a panel on the subject, "You and Your Family," the last in the "Preparing for Parenthood" series, held by the Hi-Y boys at 7:30 p. m. Monday at the Y. Both the parents and the boys reached the conclusion that most problems could be avoided by mutually talking over the subject and reaching a common understanding.

Dr. Gladys Watson of the MacMurray faculty was the moderator for the group and summed up their ideas at the close of the meeting. Those participating were Mrs. Violet Auerhahn, Lafayette school teacher who is the mother of a high school age son, and George Thayer and Howard Walls, the fathers of high school boys; Jimmy Marine and Jimmy Mills, sophomores, and Sam Perkins, a senior.

Rules for Family Car
All agreed that parents and their sons should have specific rules as to the use of the family car and the hour at which the boys should arrive home, as well as a specific punishment should be inflicted if the boys must step out of line. Around midnight was decided to be late enough for ordinary affairs.

Self discipline was unanimously acclaimed as the goal. The boys should be encouraged to learn to decide wisely for themselves.

The parents stated that if the boys must smoke, it would be best for them to start doing so in the home, not to sneak about it, and their sons assented. They, however, declared that they did not care to go with girls who smoked; it reduced their feminine appeal.

When the problem of finances was brought up, the decision reached was that the parents should provide the necessities, but the boy should earn their own spending money. Here the parents intervened to say that the boy's job shouldn't interfere with his schoolwork or his sleep. The young people recognized the right of their fathers and mothers.

to give advice as to the spending of money earned or of allowances, but they declared they had the right to the final say in the matter. Five dollars was named as the most liberal allowance that should be given.

Understanding Money Problems
The speakers agreed that parents should explain their financial situation to their children, so that the children could really understand why they could or could not have much money.

Boys should all have responsibilities in the home, they said, such as tending the furnace of taking care of the lawn. And the boys themselves made it plain that they thought their parents were doing them harm rather than good if they didn't give them tasks to perform.

When the parents complained about their sons not staying home enough, saying that they liked to visit with the boys, the answer of one boy was that during his time at home his father was always behind a newspaper, his mother always busy, he had no incentive to stay there.

Blueboys Grab Title In Tournament; Rout Nips Chapin

Tamp Bemidji 67-48 In Championship Tilt, Shurtleff Takes Third

The host Illinois college Blueboys walked off with first place honors in their annual holiday tournament at I.S.D. last night, when they moved past the Bemidji Teachers 67-48 in the championship finale.

Shurtleff's Pioneers won consolation honors in the four-team meet by notching a 67-54 victory over Carthage college.

Last night's win marked the second championship for the host Hilltoppers in the two years that they have sponsored the tournament. The Bemidji athletes from the great north woods country moved a notch higher over their third place rating of last year.

Twenty-two hoopsters registered points in the box score of the final

game that somehow lacked the flavor of a championship bout. Twelve Bemidji athletes joined in the scoring and 10 Blueboy cagers left their mark in the score-book as rival coaches substituted freely throughout the listless game.

Score 23-12 At Half
Bemidji had scored only 12 points by halftime, putting the local collegians on front 23-12 at that juncture. Paced by the rugged rebounding of Bill Gross and Don Longer, the Blueboys allowed the cold visitors but one shot at the hoop in succession. A check of the records late in the second half revealed that Bemidji had tallied only three field goals. The Minnesota athletes finally came through with 13 successful tries from the field after the game loosened up in the late minutes of play.

Bill Gross paced the early Blueboy offense and showed 13 points for his night's work. Bill Shouse was smothered by some effective guarding on the part of Don Edam but managed to break away in the late minutes of play and chalk up 15 counters to lead all scoring in the championship tilt.

Edam Helps Bemidji Cause
Edam, besides doing a neat job in guarding Shouse, scored with his one-handed for 14 tallies to share scoring honors for Bemidji with lanky pivot man Nels Scheil.

The Blueboys played without Bob Grove again last night.

The preliminary bout was all Shurtleff as stocky Dutch Miller rang up 22 points and led the Pioneers to a 67-54 win over Carthage.

Russo and Peterson led Carthage scoring with 13 and 12 points each.

Don Fairfield, Nichols Park golf pro during the summer months, is spending the winter in Phoenix, Arizona. He plans to enter some upcoming tournaments in the sunny southwest.

R. A. Drysdale, sports editor of the Springfield State Journal, was recently bemoaning the fact that Bus Hogan, A.A.U. commissioner was forced to move his A.A.U. district basketball tournament to Chatham because Springfield couldn't provide ample facilities for the 32-team meet. Hogan certainly couldn't promote a basketball tournament in Jacksonville, but the winds carry rumors that he is very much interested in our city as a permanent site for his state and regional softball tournaments. Though we don't have much gym space, we can offer him all outdoors!

Another circulating rumor hints that Jacksonville may see some professional basketball later this winter. Promoters are working on plans that will bring four teams into Jacksonville for a two-headed program.

They'd better strike while the iron is hot. What, with the college holiday tournament just ended, the JHS-Routt struggle on tap tonight, followed by the local prep holiday meet next week, Jacksonville will have its fill of the cage sport prematurely this winter.

Best passer on the 1949 Michigan State freshman football team really was a thrower—Willie Throver, halfback from New Kensington, Pa.

Following the footsteps of your favorite sports editor, we found someone who thinks he knows who will win the MSM games this week. "Corney"—here are Corney's predictions:

Tuesday—
Raymond over Auburn, 15 pts.
Nokomis over Girard, 20 pts.
Divernon upset Virden 3 pts.
Ball over St. James, 10 pts.
Mt. Olive over Waverly 20 pts.
Pawnee over Northwestern 10 pts.

Thursday—
Northwestern over Roodhouse, 15 points.

Friday—
Nokomis over Divernon 7 pts.
Carrollton over Virden, 20 pts.

FARMERS AUTO SALES WINS TWO GAMES

Crimsons, Rockets Clash At ISD Tonight In Intra-City Tussle

All roads lead to Jacksonville and all streets point for the I.S.D. gymnasium tonight!

Tabbed as the basketball game of the year as far as Jacksonville high school enthusiasts are concerned, an intra-city tilt in the west end gymnasium tonight will pit the J.H.S. Crimsons against Routt's Rockets in the fourth game of a revived series between the local prep quintets.

Here's all you need to know to get out and cheer for your favorite in what will undoubtedly turn into a

downright dog-eat-dog fight to the finish basketball game. The preliminary (and it's always a thriller, too) will start at 7 p.m. with the headliner set for 8:30 o'clock.

Doors Will Open at 6 P.M.
In order to accommodate the expected huge turnout, the doors will be opened at 6 p.m., one hour before game time. Seating capacity at I.S.D. is guessed somewhere around 1350, and every seat will be taken. Fans, 1600 strong, turn out annually for this titanic struggle between the Jacksonville athletes.

Paul Stroud and his Routt crew played at Chapin last night, and that tune-up bout can be listed either an advantage or disadvantage for the east-siders. John Chapman's Jacks were idle and some observers believe that Routt's action may give them a better tone than the idle Crimsons. Then, there are the students of the game who think it's a tiring sport, and who will contend that the Jacks have an edge, because the Rockets will be too tired after battling with Chapin last night.

No matter which school of thought you favor, it's a dead clinch that both teams will give their all tonight.

Previous Records
Proof of the rivalry that exists between the two clubs has been tendered through every game since the series was brought back four years ago. The first year, J.H.S. nipped the Rockets by a single point. The following season they outclassed Routt by a 20-point margin. Last year, the east-side gang battled to a one-point decision over the Jacks, to leave their lasting impression on the record books.

Not counting last night's game at Chapin, the Jacks hold a slight edge over Routt according to the records. The Chapman's gang has won four games this season while dropping but two. Routt has carried its purple and white silks into the winner's circle a total of three times while also coming out on the short end of the count twice.

Crimson Depth May Tell Tale
If any one factor—besides good old fashioned movie—has any bearing on the outcome of tonight's struggle, it will be the Crimson squad's reserve strength. Coach Chapman has depth aplenty while Paul Stroud must count on six boys to carry the load for Routt.

Routt starters will be Dick Casler and Bill Kaufmann, forwards; Paul Saner, center; A. J. Spreen and Sonny Lonergan, guards.

For J.H.S. it will be Bill Williams, Dick Chapman, Harvey Myers or Dick Gotchall, forwards; Maylon Baldwin or John Rhodes, center; Ike Wright and Ron Kemp, guards.

Reitzel, Taylor Lead Chandlerville To 53-43 Victory

Chandlerville—Reitzel and Taylor, Chandlerville forwards, counted 15 points each last night to lead their quintet to a 53 to 43 victory over the hapless Virginia Redheads.

The Virginia pivot man, Harrison, took scoring honors for the evening with 18 counters.

Chandlerville's reserves won the preliminary by a 33 to 18 score.

MOST HOUSES ARE IN THEIR DUTAGE. Minneapolis—(P)—Old houses can be said to be subject to hardening of the arteries.

That's the conclusion drawn from a study of home obsolescence conducted by Tom McDonald, vice president of the Minneapolis-Honeywell Regulator Co. His sampling indicated that 51 per cent of the 43,000,000 homes in the U. S. are more than 30 years old. In most cases they are still equipped with lighting and plumbing fixtures, heating plants and other accessories that belonged to a past generation.

"This brings about a kind of hardening of the arteries through increasing maintenance costs and decreasing property values," says McDonald, who was primarily interested in finding that only about 8,000,000 homes have automatically controlled heating systems.

COMEDY RELIEF IN CHICAGO. Chicago—(P)—A robber strode into a grocery and demanded all the cash in the place. The owner Mike Kollak, reached for a pistol and fired two shots. The holdup man fled. Kollak, chased him. A block away the fugitive headed for his get-away automobile.

"Stop!" shouted Kollak. "If you get in that car, I'll shoot." The robber laughed and drove away. In the excitement Kollak had left his gun in his store.

REDS IMPRESS MAILMAN. Hamburg —(P)—Local papers report that Eastern German mailmen have received a certain "quota" of Communist papers to distribute every day. Eastern Germans apparently do not like the Communist propaganda and circulation is falling. Letter carriers who fail to distribute enough papers are charged with "sabotage".

HON. HIGH PRESSURE. Tokyo —(P)—Minister of State Kikuchi Yamauchi has told parliament that if the government would abandon "usual bureaucratic methods," and get busy and advertise, it could sell some \$20,000,000 worth of things like bathtubs, stoves and building materials that it is holding in warehouses.

EGYPT TO GET JAPANESE CLOTH. Cairo —(P)—The reliable newspaper "Al Zaman" reports Egypt is considering a 50 per cent cut in duties on Japanese textiles to lower the cost of living. Local cloth is made of expensive long staple Egyptian cotton.

aries approved for entry into Japan have increased from 315 in 1947 to 644 for the first nine months of 1949. Major denominations have gained 33,000 members the past year.

Stevenson Gets Petitions Asking Aid For Chicago

Springfield, Ill., Dec. 20.—(P)—Petitions asking a special legislative session on increasing state financial aid for Chicago were presented to Governor Stevenson today.

The governor, who has turned down similar requests in the past, made no commitment.

The petitions were handed to Stevenson in the executive mansion by John A. Jonas, president of the Chicago District Council of Public Employees No. 42, and Eugene De Grazia, chairman of the group's legislative committee.

Afterwards, the governor said: "I asked them what legislative program they prepared and they informed me that one is being prepared and would be presented to me at a later date."

BROWNIES GIVE TOYS TO SALVATION ARMY

Brownie Group 39 took an assortment of toys, their Christmas project, to the Salvation Army, singing carols on the way, during their party Tuesday afternoon. Mrs. Alice Dobson, their leader, was the hostess, assisted by Mrs. La Verne Boruff and Mrs. Elizabeth Crabtree.

Games were played and a gift exchange was held, after which refreshments were served by the hostesses.

Government Foresees Big Winter Wheat Harvest

Washington, Dec. 20.—(P)—The government today forecast next year's winter wheat crop at 884,658,000 bushels—only about two per cent less than this year's third largest crop in history.

This prediction raised the possibility that department of agriculture efforts to cut next year's production appreciably is headed for less success than had hoped.

With foreign markets dropping from record postwar levels, prices depressing surpluses of the grain are piling up. The government itself has more than \$500,000,000 invested in excess wheat.

Should today's forecast be borne out and should the spring wheat crop turn out at a possible 275,000,000 bushels, the total 1950 wheat production would be about 1,160,000,000 bushels.

The department had invoked an acreage allotment program which officials hoped would hold the crop below 1,100,000,000 bushels. The yield this year was 1,146,000,000 compared with an average crop of 1,091,000,000 bushels.

Winter wheat farmers did reduce their planting—made during the late summer and fall—well in line with department recommendations. But the reduction in the indicated production did not match the cut in

acreage. Illinois 1,597,000 acres seeded and production 30,343,000 bushels; Indiana 1,509,000 and 31,689,000; Michigan 1,186,000 and 31,429,000; Missouri 1,700,000 and 25,500,000.

OUTSIZED AIR GUN SHOOT'S BALES INTO LOFT, FARMER SAYS

Chicago, Dec. 20.—(P)—Farmer Jones, pretty soon you won't need to hoist all those hay bales up into the hayloft, you'll just shoot them up with a pneumatic gun at triple the manual speed.

The gun is already invented and tested. Its farmer inventor is P. W. Moffett, Jr., 33, of Idylbrook farm, near Rochester, N. Y. Last year he shot 15,000 bales into the lofts on his dairy farm.

His gun—as yet not produced commercially—was described today at the winter meeting of the American Society of Agricultural Engineers.

Moffett, a trim, slender bow-tied farmer, said in an interview that he invented and designed the gun "because I had built hay conveyors and I thought too much equipment was involved." He has been farming all his life.

The gun is essentially a tube containing a plunger. Compressed air is suddenly let into the tube when the farmer pulls a cord. The bale of hay sits on the plunger, and when the compressed air blasts into the tube the plunger throws the bale into the loft door.

The gun is aimed and elevated by hand controlled wheels just as an artillery piece.

Moffett said that—not including a standard air compressor—labor and material going into his bale gun cost \$300.

Liljedahl said tests at Iowa State college showed that a two-man crew using a conventional barn hay fork could put 3.2 bales per minute into a loft. One man working at top speed with a bale gun was able to put in 12 bales through a ten-foot high door in one minute.

Patterson Dinner Marks Birthday Of White Hall Grocer

Patterson—William Wald, manager of the Kroger store in White Hall, was guest of honor at a supper held last Thursday evening at the home of his wife's parents, Mr. and Mrs. Norville Hicks, south of Patterson.

Commander John Cochran presided, and a number of reports were given on various subjects, including veterans, funerals, treats for those hospitalized and a possible shuffleboard tournament. Five members were accepted by transfer and reinstatement, two donations were voted and plans were formulated for an open house and a "bar bank" in which members could drop extra cash to be used to purchase cigarettes for veterans at the Jacksonville State Hospital.
